SUMMARY

Innovative frontend developer with almost 5 years of experience in building and maintaining frontend services. My selected areas of expertise include Front-end Development, Server side applications, React JS, Agile Project Management, UI/UX, SEO, and Multi-language applications. Recently, I moved to Germany and I am currently looking for opportunities to utilize my expertise.

EXPERIENCE

Freelance Project, *Frontend developer*

Mar 2024 - Present - Remote

- Built an admin panel for Server Management using **ReactJs**, **Typescript**, **ContextAPI**, and **React query**.
- Applied React Query for efficient data fetching and caching, enhancing application performance and responsiveness.
- Designed and modernized attractive, **responsive**, and **mobile-friendly features** with **TailwindCSS**.

Novin Rayane Elmo Amal (*Selected Geeks*), *Frontend developer*

Jan 2020 - Dec 2023 - Hybrid - Teheran

- Created and launched intuitive admin panels and visually appealing landing pages leveraging **NextJs**, **ReactJs**, **TypeScript**, and **Redux**; increased user interactions by 30% and elevated conversion rates by 15%.
- Engineered enhancements using cutting-edge Next.js techniques for **large-scale applications**, including **automated SVG icons** management to convert React components for easy customization and **Storybook** documentation; optimized component organization and **error handling**, reducing bug occurrence by 40% and development time by 25%.
- Established a monorepo structure to unify all application and **microservice code**, boosting team collaboration and code consistency by 40%.
- Conducted performance analysis and optimized frontend code for **faster load times**, employing techniques such as **code splitting**, **lazy loading**, and **image optimization**.

- Boosted search engine visibility by leveraging **Next.js**'s built-in **SEO** capabilities, including customizable *meta tags* and *headers*. This resulted in a 30% increase in organic search rankings and a 15% rise in website traffic.
- Collaborated closely with project managers, software engineers, and web/UX designers to design, implement, and test user interface elements, resulting in a 25% reduction in design iterations and faster project delivery.

Kankashgaran Karo Kala, *Frontend developer*

Apr 2019 - Dec 2019 - On-site - Karaj, Alborz

- Developed and maintained user-friendly, responsive eCommerce website using **NextJs**, and **Redux**, improving user experience and increasing customer retention by 25%.
- Refactored codebase to enhance structure and quality, reducing bugs by 20% and improving code review efficiency by 30%.
- Improved load time by 90% (15s to <2s) through image optimization, lazy loading, and caching.
- Implemented **responsive design** principles to ensure seamless performance across desktop and mobile devices, contributing to a 35% rise in mobile traffic and sales.
- Utilized **Git** for version control and collaborated with team members through GitLab, improving codebase management and reducing deployment errors by 20%.
- Leveraged advanced techniques in **Flexbox**, **Grid**, and **Sass** to create visually appealing, responsive, and mobile-friendly website elements, reducing style conflicts by an impressive 30%.

SKILLS

- **Programing Languages:** Javascript, Typescript, HTML, CSS
- **Technologies:** ReactJs, NextJs, Git, Context, Redux, React query, Axios, Storybook
- **CSS Frameworks:** TailwindCSS, Bootstrap, SCSS, MaterialUI, Flexbox, Grid CSS

EDUCATION

Azad University Nour Branch , Iran - *Bachelor's Degree of Mechanical Engineering*
